SOLUTIONS THAT WORK

Over the last twenty years, SESCO Technology Solutions has grown to become a leading Business Technology Integration company in Puerto Rico committed to finding the right technology solutions for our customers. Our growth is largely due to our valued reputation as a leader in cutting edge communications systems, specializing in IP convergence and in providing excellent customer service and the highest quality products available in the market today at the most competitive prices.

SESCO is a Cisco Certified Premier Partner and a DELL Preferred Direct Partner with specializations in Advanced Unified Communications, Advanced Data Center Architecture, Advanced Wireless LAN, Advanced Data Center Storage Networking, Advanced Unified Computing Technology, Video Surveillance and Outdoor Wireless Mesh.

We believe in Integrating Business Strategies with Technology while strengthening Customer Relationships. Our vision is to keep all key areas of an IT organization moving in the same direction and towards a common goal. Our professional services are focused on assessment, fine-tuning, design, integration and support of leading edge, high-performance network solutions.

Our Business & Technology Solutions include:

- Network Assessment, Design and Integration
- IP Telephony Solutions
- Wireless Communication Solutions
- Unified Communications
- Information Security Services
- Enterprise Server & Network Management
- Data Center Storage
- Network Cabling
- IP Video Surveillance
- Computers and copiers

SESCO's unique blend of proficiency and experience allows our customers to depend on us as a single source for planning, deployment and long-term support of their complex projects.

Our mission is to assist our customers in achieving their technology and strategic business initiatives. We are here to listen, consult, execute and deliver net results to our clients.

Our staff includes consultants, engineers and technical specialists who can accommodate any size project. We know how to design systems with the flexibility to grow as our clients' needs grow.

Whether you are establishing a mission-critical telecommunications foundation, managing a geographically dispersed network environment or planning profound changes in your existing infrastructure, SESCO is your answer for successful Enterprise Solutions.

Let SESCO build success into your strategy with Services and Solutions that work!
